

# OSCAR MOYEDA

## Software Engineer

+52 644 150 0717

@ oscarmoyedadev@gmail.com

## SUMMARY

I am a Computer Science student with good solid knowledge about programming fundamentals and nice experience with data structures and databases.

## SKILLS

Python Java C# .NET SQL JavaScript HTML CSS Azure MongoDB

## PROJECTS

### VIP Diner Service

12/2022

I built a desktop application where you could manage a School Cafeteria-themed membership connected to a database with every customer information such as names, ID, and expiry date.

## EDUCATION

### Computer Science

Universidad de Guadalajara

08/2021 - Ongoing

## ACHIEVEMENTS

### I helped my classmates debugging and testing their projects

I could understand their code and program structure with ease and find potential flaws across their projects, and I was able to explain the problem and the fix to them.

## STRENGTHS

### Read the environment and take a better course of action

As time passed, I realized how I could understand the context and people's emotions in a short amount of time, and so I could use that to get a better outcome of events.

### Learn the important stuff quickly

At some point I learned how I could focus and find the relevant stuff to learn and only focus on that.

## PASSIONS

Computer Science

Piano / Music

Data Science

Artificial Intelligence

## LANGUAGES

English

Proficient
